Front-End / Web Developer / SEO Specialist

Summary

I build fast, responsive websites and browser-side products with Astro, React, TypeScript, Tailwind, and Cloudflare. My work includes production nonprofit and small-business websites, a live HTML component library with organic users and traffic, a commercial desktop/web product, and a Chrome MV3 AI assistant. I combine front-end implementation with practical SEO structure, conversion-focused content, technical troubleshooting, and ongoing site operations.

Skills

- **Front-end:** Astro, React, TypeScript, JavaScript, HTML, CSS, Tailwind, Vite, responsive design.
- **Web architecture:** static site generation, content collections, reusable components, Pagefind search, Cloudflare Pages, Vercel.
- **SEO and site quality:** semantic structure, metadata, internal linking, mobile usability, performance, service-page architecture, local-business conversion paths.
- **Browser products:** Chrome Manifest V3, side panels, content scripts, local storage, page-context collection.
- **Operations:** domains and deployment, Git/GitHub, forms and intake flows, content updates, troubleshooting, backups and maintenance concepts.

Selected Work

Client Websites and Savv Studio Portfolio (<https://savvstudio.com/work>)

- Built my first website in 2019 for DPTF Foundation (<https://drttsavnandefoundation.com>), then continued building small-business and nonprofit sites.
- Built and maintain Vanity Hair WPG (<https://vanityhairwpg.ca>) with responsive service content, booking-oriented calls to action, and ongoing client support.
- Structure service pages around clear offers, local relevance, readable content, mobile usability, and conversion-focused contact paths.

HTMLHub (<https://htmlhub.org>)

- Built and run an Astro 5 library for reusable HTML, CSS, Canvas, and WebGL animations.
- Grew the product organically to 10,000 users per month with zero ad spend.
- Implemented category pages, effect detail routes, content collections, React islands, reusable Astro components, standalone examples, metadata-driven routing, and Pagefind search.

Nerdbot — Chrome MV3 AI Assistant

(<https://chromewebstore.google.com/detail/nerdbot/oegoeflmcbahliaahlameajidnhlpiog>)

- Built a React/TypeScript/Vite side-panel product with active-page context, selected text, screenshots, local settings, chat history, and multi-provider AI configuration.
- Designed a privacy-aware user experience where page data is included only when the user explicitly chooses it.

Experience

Founder & Lead Developer — Savv Studio / SavvOps

Remote | January 2023 – Present

- Build websites, landing pages, browser extensions, content systems, and automation-backed product prototypes.
- Translate client goals into scoped information architecture, responsive interfaces, deployment plans, and maintainable content.
- Ship with Astro, React, TypeScript, Tailwind, Cloudflare Pages, Vercel, and Git/GitHub.

Contract Web Developer & Seasonal Operations Support — Window Guys Winnipeg

Winnipeg / Remote | Seasonal contracts, 2024 – Present

- Improved local-service web presence, quote-request flow, customer credibility, and seasonal lead-generation support.
- Helped with data cleanup, sales/support operations, and field work during active seasons.

Customer Technical Support & Operations Representative — IntouchCX

Remote / Winnipeg, MB | March 2025 – May 2026

- Supported customers through chat, phone, CRM/ticket workflows, escalation paths, and documented quality processes.

Education

Bachelor of Science in Mathematics and Physics

University of Manitoba, Winnipeg, MB | May 2023
